SUMMARY AND OVERVIEW OF THE PROGRAM

This summary must be read as an introduction to this Prospectus. Any decision to invest in any Bonds should be based on a consideration of this Prospectus as a whole, including the documents incorporated by reference, by any investor. Words and expressions defined or used in "Terms and Conditions of the Bonds" shall have the same meaning in this summary.

The Corporation

International Finance Corporation is an international organization, established in 1956 to further economic growth in its developing member countries by promoting private sector development. The Corporation is a member of the World Bank Group, which also comprises the International Bank for Reconstruction and Development ("IBRD"), the International Development Association ("IDA"), the Multilateral Investment Guarantee Agency ("MIGA") and the International Centre for Settlement of Investment Disputes ("ICSID"). It is a legal entity separate and distinct from IBRD, IDA, MIGA and ICSID with its own Articles of Agreement, share capital, financial structure, management, and staff. Membership in the Corporation is open only to member countries of IBRD. The obligations of the Corporation are not obligations of, or guaranteed by, IBRD or any government.

The Corporation's principal office is located at 2121 Pennsylvania Avenue, N.W., Washington, D.C. 20433, United States of America. Its telephone number is +1 202 458 9230.

The Corporation is an experienced supranational organization providing financing and financial services primarily to the private sector in developing countries that are members of the Corporation. It combines the characteristics of a multilateral development bank with those of a private financial institution. As of June 30, 2019, the Corporation's entire share capital was held by 185 member countries. As of June 30, 2019, member countries of the Organization for Economic Cooperation and Development ("OECD") held 65.51 per cent. of the voting power of the Corporation. The five largest of the Corporation's 185 shareholders are the United States (20.98 per cent. of the total voting power), Japan (6.01 per cent.), Germany (4.77 per cent.), United Kingdom (4.48 per cent.) and France (4.48 per cent.). The Corporation's share capital is provided by its member countries. It raises most of the funds for its investment activities through the issuance of notes, bonds and other debt securities in the international capital markets. Unlike most other multilateral institutions, the Corporation does not accept host government guarantees of its loans. Generally, the Corporation charges market based rates for its loans and seeks market returns on its debt security and equity investments. The financial strength of the Corporation is based principally on the quality of its investment portfolio, its substantial paid-in capital and retained earnings, low debt to equity ratio, the size of its liquid assets portfolio, its diversified earnings base and its consistent profitability.

IFC helps developing countries achieve sustainable growth by financing private sector investment, mobilizing capital in international financial markets, and providing advisory services to businesses and governments. IFC's principal investment products are loans and equity investments, with smaller debt security and guarantee portfolios. IFC also plays an active and direct role in mobilizing additional funding from other investors and lenders through a variety of means. Such means principally comprise: loan participations, parallel loans, sales of loans, the non-IFC portion of structured finance transactions which meet core mobilization criteria, and the non-IFC portion of commitments in IFC's initiatives (collectively Core Mobilization). Unlike most other multilateral institutions, IFC does not accept host government guarantees of its exposures. IFC raises virtually all of the funds for its lending activities through the issuance of debt obligations in the international capital markets, while maintaining a small borrowing window with IBRD. Equity investments are funded from capital (or net worth).

RISK FACTORS

The following section does not describe all the risks (including those relating to each prospective investor's particular circumstances) with respect to an investment in the Bonds of a particular series, including jurisdiction-specific disclosure, the interest rate, exchange rate, and redemption, option and other rights associated with such Bonds or when the Investor's Currency (as defined below) is other than Lari. Prospective investors should refer to and carefully consider the applicable Final Terms for each particular issue of Bonds, which may describe additional risks associated with such Bonds. The risks in the following section and the applicable Final Terms are provided as general information only. The Corporation disclaims any responsibility to advise prospective investors of such risks as they exist at the date of this Prospectus or Final Terms or as such risks may change from time to time. Prospective investors should consult their own financial and legal advisers about risks associated with an investment in an issue of Bonds. Prospective investors should have the financial status and sufficient knowledge and experience in financial and business matters to evaluate the information contained in this Prospectus and the applicable Final Terms and the merits and risks of investing in a particular issue of Bonds in the context of their financial position and particular circumstances. Prospective investors should have the ability and expertise, and/or access to the appropriate analytical resources to analyze such investment, to evaluate the sensitivity of such investment to changes in economic conditions, interest rates, exchange rates, and the redemption, option and other rights associated with such investment, and other factors which may have a bearing on the merits and risks of such investment, and the suitability of such investment in such investor's particular circumstances. In addition, prospective investors should have the financial capacity to bear the risks associated with any investment in such Bonds and should review, among other things, the most recent audited and unaudited financial statements, if any, of the Corporation incorporated by reference into this Prospectus when deciding whether or not to purchase any Bonds. Words and expressions defined or used in "Terms and Conditions of the Bonds" shall have the same meaning in this section.

Exchange Rate Risks and Exchange Controls

The Bonds will be denominated and payable in Lari. For investors whose financial activities are denominated principally in a currency (the "Investor's Currency") other than Lari, an investment in the Bonds entails significant risks that are not associated with a similar investment in a security denominated in that Investor's Currency.

Such risks include, without limitation, the possibility of significant changes in the rate of exchange between Lari and the Investor's Currency and the possibility of the imposition or modification of exchange controls in respect of Lari or the Investor's Currency. Exchange controls could affect exchange rates as well as the availability of Lari at the time of payment of principal, premium (if any) or interest in respect of a Bond. Such risks generally depend on economic and political events over which the Corporation has no control. Fluctuations in any particular exchange rate that have occurred in the past are not indicative of fluctuations that may occur in the future. A depreciation of Lari against the Investor's Currency would result in a decrease in the Investor's Currency equivalent yield on a Bond denominated in Lari, in the Investor's Currency equivalent value of the principal payable at maturity of such Bond and generally in the Investor's Currency equivalent market value of such Bond. An appreciation of Lari against the Investor's Currency would have the opposite effect. In addition, depending on the specified terms of a Bond denominated in, or the payment of which is related to the value of, one or more currencies, changes in exchange rates relating to any of the currencies involved may result in a decrease in such Bond's effective yield and, in certain circumstances, could result in a loss of all or a substantial portion of the principal of a Bond to the investor.

Market Liquidity and Yield Risks

Bonds may not have an established trading market when issued. There can be no assurance of a secondary market for any Bonds or the liquidity of such market if one develops. Consequently, investors may not be able to sell their Bonds readily or at prices that will enable them to realize a yield comparable to that of similar instruments, if any, with a developed secondary market. Illiquidity may have an adverse effect on the market value of the Bonds.

Depending upon the type of Bonds, market conditions and other factors, investors seeking to sell relatively small or relatively large amounts of Bonds may not be able to do so at prices comparable to those that may be available to other investors.

The secondary market for an issue of Bonds also will be affected by a number of other factors independent of the creditworthiness of the Corporation. These factors may include the method of calculating the principal, premium (if any) or any interest to be paid in respect of such Bonds, the time remaining to the maturity of such Bonds, the outstanding amount of such Bonds, any optional redemption features of such Bonds, the amount of such Bonds being sold in the secondary market from time to time, any legal restrictions limiting demand for such Bonds, the availability of comparable securities, and the level, direction and volatility of market interest rates generally. Such factors will also affect the market value of the Bonds.

No investor should purchase Bonds unless such investor understands and is able to bear the risk that certain Bonds may not be readily saleable, that the value of Bonds will fluctuate over time, and that such fluctuations may be significant and could result in significant losses to such investor. This is particularly the case for investors whose circumstances may not permit them to hold the Bonds until maturity.

The market value of Bonds bearing interest at a Floating Rate with caps or floors generally are more volatile than those of Bonds bearing interest at a Floating Rate linked to the same benchmark without caps or floors, especially when the benchmark approaches the cap or floor.

Instruments issued at a substantial discount or premium from the nominal amount payable on such instruments, such as Bonds issued at a substantial discount to their nominal amount or Bonds issued with significantly above-market interest rates, tend to fluctuate more in relation to general changes in interest rates than do such prices for conventional interest-bearing securities with comparable maturities. Generally, the longer the remaining term of such instruments, the greater their price volatility as compared to that for conventional interest-bearing securities with comparable maturities.

Legal Investment Risks

Investors should consult their own legal advisers in determining whether and to what extent Bonds constitute legal investments for such investors and whether and to what extent Bonds can be used as collateral for various types of borrowings. In addition, financial institutions should consult their legal advisers or regulators in determining the appropriate treatment of Bonds under any applicable risk-based capital or similar rules.

Investors whose investment activities are subject to investment laws and regulations or to review or regulation by certain authorities may be subject to restrictions on investments in certain types of debt securities, which may include Bonds. Investors should review and consider such restrictions prior to investing in Bonds.

Risk Factors relating to the Corporation

As described in more detail in the Corporation's Information Statement, the Corporation is an experienced supranational organization providing financing and financial services primarily to the private sector in developing countries that are members of the Corporation. The Corporation's investment products include, among others, loans, equity and quasi-equity investments, guarantees and partial credit guarantees, and client risk management products. TERMS AND CONDITIONS OF THE BONDS

The following is the text of the terms and conditions (the "Conditions" and each a "Condition") that, subject to completion and amendment and as supplemented or varied in accordance with the provisions of Part A of the applicable Final Terms, will apply to the Bonds referred to in such Final Terms.

In these Conditions, "Bondholder" and "holder" each means the account holder (the registered owner) of a Bond.

References in these Conditions to terms specified in the applicable Final Terms shall be deemed to include references to terms specified in the applicable Final Terms issued in respect of a particular issue of Bonds (each a "Final Terms"). The Bondholders are deemed to have notice of all of the provisions of the Final Terms relevant to such Bonds, and by purchasing the Bonds accept the applicability of the Conditions and the Final Terms to the Bonds.

These Conditions may be amended, modified or varied in relation to any Series of Bonds by the terms of the applicable Final Terms in relation to such Series. All capitalized terms that are not defined in these Conditions will have the meanings given to them in the applicable Final Terms.

1. Form, Denomination, Title and Currency

(a) *Form*: Each issue of Bonds of which this Bond forms a part (the "Bonds") is issued as dematerialized book entry bonds ("Book Entry Bonds") in the nominal amount of a Specified Denomination (as defined in Condition 1(b)) as specified in the Final Terms, and these Conditions must be read accordingly.

(b) *Denomination*: "Specified Denomination" means the denomination or denominations specified in the Final Terms.

(c) *Registrar; Title*: Unless otherwise specified in the applicable Final Terms, Book Entry Bonds will be registered with JSC "United Securities Registrar of Georgia" (the "Registrar"). The Corporation and the Paying Agent shall be entitled to deem and treat the holder (or nominee holder) in whose name a Bond is registered in the Bond register maintained by the Registrar (the "Registered Holder") as the absolute owner of the Bonds of the relevant Series for the purpose of making payments and, for all purposes whatsoever notwithstanding any notice to the contrary, and all payments to or on the order of such Registered Holder shall be valid and effective to discharge the liability of the Corporation and the Paying Agent with respect to such Bonds to the extent of the sum or sums so paid; provided, however, that as long as any of the Bonds are accepted for clearance through GCSD, the Corporation and the Paying Agent shall be entitled to instead deem and treat the holders (or nominee holders) in whose name such Bonds are registered in the records maintained by the GCSD as the Registered Holders for the above purposes. As used in these Conditions, in respect of the Bonds admitted for clearance through GCSD, the term "Registered Holder" includes, for all purposes of these Conditions, any person recorded as the holder (or nominee holder) of the Bond in the records of GCSD.

(d) *Currency*: Unless otherwise specified in the Final Terms, all payments of principal and interest in respect of a Bond shall be made in Lari.

(a) *Transfer of Bonds*: Title to the Bonds shall pass upon registration of the title in the register at the Registrar or through registration of a change in records maintained by the nominee holder of the Bond, as applicable. The Bonds may be transferred in accordance with relevant Georgian law requirements. Transfers of interests in Bonds within the clearing system will be made in accordance with the usual rules and operating procedures of the clearing system and the nature of the transfer.

(b) *Closed Period*: Unless otherwise specified in the applicable Final Terms, no transfer of a Bond may be effected (i) during the period starting on any Record Date (as defined in Condition 6(a)) and ending on (and including) any due date for any payment of principal or interest in respect of that Bond, (ii) during the notice period immediately preceding any date on which Bonds may be called for redemption by the Corporation at its option pursuant to Condition 5(c), or (iii) after any such Bond has been called for redemption. For avoidance of any doubt, any transfer of the Bonds during the Closed Period will not affect distribution of the payments under the Bonds (whether principal or interest) in accordance with Condition 6(a), which will be made to

the Registered Holders as of the close of business on the Record Date and neither the Issuer nor the Paying Agent accepts any liability for any distribution of the payments under the Bonds being so made.

3. Status of Bonds

The Bonds are direct, unconditional, general and unsecured obligations of the Corporation ranking *pari passu* and without any preference among themselves and *pari passu* with all other outstanding unsecured and unsubordinated obligations for borrowed money of the Corporation.

4. Interest

(a) *Interest on Fixed Rate Bonds:* Each Fixed Rate Bond bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 4(e).

(b) *Interest on Floating Rate Bonds:*

(i) Interest Payment Dates:

The amount of interest payable shall be determined in accordance with Condition 4(e). Such Interest Payment Date(s) is/are either specified in the Final Terms as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are specified in the Final Terms, Interest Payment Date shall mean each date which falls on the last day of the period specified in the Final Terms as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(ii) Business Day Convention:

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(c) *Accrual of Interest:* Interest shall cease to accrue on each Bond on the due date for redemption unless payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 4 to the Relevant Date (as defined in Condition 8).

(d) *Margin, Maximum/Minimum Rates of Interest and Rounding:*

- (i) If any Margin is specified in the Final Terms (either (x) generally, or (y) in relation to one or more Interest Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Periods, in the case of (y), calculated in accordance with this Condition 4 by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin, subject always to paragraph (ii) below.
- (ii) If any Maximum or Minimum Rate of Interest is specified in the Final Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.

In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated. If the Calculation Amount is not specified in the Final Terms, the Calculation Amount shall equal the minimum Specified Denomination.

(f) *Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts and Optional Redemption Amounts:* The Calculation Agent shall, as soon as practicable on each Interest Determination Date, or such other time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, determine such rate and calculate the Interest Amounts for the relevant Interest Period, calculate the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount to be notified to the Corporation, the Paying Agent, the Bondholders, and, if the Bonds are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date is subject to adjustment pursuant to Condition 4(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Bonds become due and payable under Condition 9, the accrued interest and the Rate of Interest payable in respect of the Bonds shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated needs to be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

5. Redemption, Purchase and Options

(a) *Final Redemption:* Unless previously redeemed, purchased and cancelled as provided below, each Bond shall be finally redeemed on the Maturity Date specified in the Final Terms at its Final Redemption Amount (which, unless otherwise provided in the applicable Final Terms, is its nominal amount).

(c) *Redemption at the Option of the Corporation:* If Call Option is specified in the Final Terms as applicable, the Corporation may, on giving not less than 14 nor more than 30 days' irrevocable notice to the Bondholders (or such other notice period as may be specified in the Final Terms) redeem the Bonds on any Optional Redemption Date. Any such redemption of Bonds shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption.

(d) *Purchases:* The Corporation may at any time purchase or otherwise acquire Bonds in the open market or otherwise. Bonds purchased or otherwise acquired by the Corporation may be held or resold or, at the discretion of the Corporation, cancelled. If purchases are made by tender, tenders must be made available to all Bondholders of the same Series alike.

6. Payments

(a) *Payments:* Any payments under the Bonds (whether principal or interest) will, unless otherwise specified in the applicable Final Terms, be made to the Registered Holders that are identified on the books of the Registrar, or, in respect of Bonds admitted in GCSD, on the books of GCSD, as of the close of business

Each Registered Holder is responsible to keep up to date its GEL bank account details with the Registrar or GCSD, as the case may be; otherwise the Registered Holder may experience delays in receiving payments under the Bonds. Neither the Corporation nor the Paying Agent assumes any liability for any delay in payments to a Registered Holder caused by the unavailability of full and precise GEL bank account details of such Registered Holder with the Registrar or GCSD, as the case may be.

(b) *Payments Subject to Law:* All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives. No commission or expenses shall be charged to the Bondholders in respect of such payments.

(c) *Appointment of Agents:* The Paying Agent and the Calculation Agent appointed in respect of any issue of Bonds act solely as agents of the Corporation and do not assume any obligation or relationship of agency or trust for or with any Bondholder. The Corporation reserves the right at any time to vary or terminate the appointment of the Paying Agent, the Calculation Agent or any other agent and to appoint a substitute and/or additional or other Paying Agent, Calculation Agent or any other agent; provided that the Corporation shall at all times maintain (i) a Paying Agent, (ii) a Calculation Agent if specified in the Final Terms, and (iii) such other agents as may be required by applicable law or any stock exchange on which the Bonds may be listed.

Notice of any such change or any change of any specified office shall promptly be given to the Bondholders in accordance with Condition 11.

(d) *Non-Business Days:* If any date for payment in respect of any Bond is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, "business day" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Tbilisi, Georgia.

(e) *Currency of Payment:* If any payment in respect of any Bond is payable in Lari and such currency is no longer used by the government of Georgia for the payment of public and private debts or used for settlement of transactions by public institutions in Georgia or within the international banking community, or Lari is not expected to be available when any payment on such Bond is due as a result of circumstances beyond the control of the Corporation, the Corporation shall be entitled to satisfy its obligations in respect of such payment by making such payment in U.S. dollars on the basis of the noon buying rate in U.S. dollars in the City of New York for wire transfers for Lari as published by the Federal Reserve Bank of New York on the second Business Day prior to such payment or, if such rate is not available on such second Business Day or is not so published, on the basis of the rate most recently available to the Calculation Agent on or prior to such second Business Day. Any payment made by the Corporation under such circumstances in such other currency or U.S. dollars will constitute valid payment, and will not constitute a default in respect of such Bond. For the purpose of this Condition 6(e), "Business Day" means a day on which the Federal Reserve Bank of New York is open for business in New York City.

7. Taxation

The Bonds (and any interest thereon) are not exempt from taxation generally.

Under the Articles of Agreement constituting the Corporation, payments in respect of principal and interest due on the Bonds are not subject to any tax by a member (i) which tax discriminates against the Bonds solely because they are issued by the Corporation, or (ii) if the sole jurisdictional basis for the tax is the place or currency in which the Bonds are issued, made payable or paid, or the location of any office or place of business maintained by the Corporation.

Under the Articles of Agreement constituting the Corporation, the Corporation is not under any obligation to withhold or pay any tax imposed by any member country in respect of the Bonds. Accordingly, payments in respect of principal and interest due on the Bonds will be paid to the Paying Agent without deduction in respect of any such tax.

8. Prescription

Claims against the Corporation for payment in respect of the Bonds shall be subject to applicable prescription and statute of limitation rules. As used in these Conditions, "Relevant Date" in respect of any Bond means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Bondholders that, such payment will be made, provided that payment is in fact made. References in these Conditions to (i) "principal" shall be deemed to include any premium payable in respect of the Bonds, all Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, and all other amounts in the nature of principal payable pursuant to Condition 5 or any amendment or supplement to it, and (ii) "interest" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 4 or any amendment or supplement to it.

9. Events of Default

With respect to a Series of Bonds, if the Corporation shall either (a) fail to pay when due the principal of, or interest on, any Bond of such Series or (b) fail to pay when due in aggregate an amount equal to or exceeding U.S.\$20,000,000 or its equivalent in any other relevant currency or currencies of the principal of, premium (if any), or interest on, any Bond of another Series, or any bonds, bonds or similar obligations (other than the Bonds) which shall have been issued, assumed or guaranteed by the Corporation and, in either case, such failure shall continue for a period of 90 days, then at any time thereafter and during the continuance of such failure, the holder of any Bond of such Series may deliver or cause to be delivered to the Corporation at its principal office in the City of Washington, District of Columbia, United States of America, written notice that such holder elects to declare all Bonds of such Series held by it (the serial numbers and denominations of which shall be set forth in such notice) to be due and payable, and on the thirtieth day after such notice shall be so delivered to the Corporation, such Bonds shall become due and payable together with accrued interest thereon, unless prior to that time all such defaults shall have been cured.

For the purpose of this Condition 9, any payment obligations that are denominated in a currency other than U.S. dollars shall be translated into U.S. dollars at the spot rate for the sale of U.S. dollars against the purchase of the relevant currency quoted by a leading commercial bank in London on the day on which default in respect of payment thereon is made (or, if for any reason such rate is not available on that day, on the first day thereafter on which such rate is available or as otherwise determined by the Calculation Agent after consultation with the Corporation).

10. Further Issues

The Corporation may from time to time without the consent of the Bondholders create and issue further bonds either having the same terms and conditions as the Bonds in all respects (or in all respects save for the issue date and the first payment of interest thereon) and so that such further issue shall be consolidated and form a single series with the outstanding securities of any series (including the Bonds) or upon such terms as the Corporation may determine at the time of their issue. References in these Conditions to the Bonds include (unless the context requires otherwise) any other securities issued pursuant to this Condition and forming a further Tranche of Bonds of the same Series as the Bonds.

11. Notices

Unless otherwise specified in the Final Terms, notices to holders shall be valid if published by IFC at www.ifc.org/investors and, if the Bonds are listed on a stock exchange, in accordance with any notice and publication requirements such exchange or other relevant authority may so require. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

Notices to be given by any holder of the Bonds shall be in writing and given by lodging the same with the Paying Agent or via the applicable clearing system (if any).

12. Governing Law and Jurisdiction

(a) *Governing Law:* The Bonds, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with the laws of Georgia.

(b) *Jurisdiction:* With respect to any legal action or proceedings (“Proceedings”) in the courts of Georgia arising out of or in connection with any Bonds, the Corporation irrevocably submits to the non-exclusive jurisdiction of the courts of Georgia *provided however*, that, in accordance with Article VI of the Articles of the Agreement, no actions shall be brought against the Corporation by members of the Corporation or persons acting for or deriving claims from members and that the property and assets of the Corporation shall, wheresoever located and by whomsoever held, be immune from all forms of seizure, attachment or execution before the delivery of final judgment against the Corporation.

CLEARANCE AND SETTLEMENT

Introduction

The Program has been designed so that Bonds may be held through GCSD or another licensed custodian or other nominee holder of Georgian securities as specified in the applicable Final Terms. Where applicable, electronic securities and payment transfer, processing, depository and custodial links are established among such systems, either directly or indirectly through custodians and depositories, which enable Bonds to be issued, held and transferred among the clearing systems across these links. The special procedures that will be established among the Paying Agent and these clearing systems to facilitate clearance and settlement of Bonds traded across borders in the secondary market will be specified in the applicable Final Terms. Cross-market transfers of Bonds denominated in certain currencies may be cleared and settled using these procedures on a delivery against payment basis. Bonds denominated in certain currencies that are denomination currencies but not settlement currencies in a relevant clearing system may be cleared by such clearing system, but can only be settled against payment in a settlement currency or free of payment.

The relationship between the Corporation and the holder of a Bond is governed by the terms and conditions of that Bond. The beneficial interests in Bonds held by a clearing system will be in book entry form in the relevant clearing system, or a depository, or a custodian or nominee on its or their behalf. Each clearing system has its own separate operating procedures and arrangements with participants or accountholders which govern the relationship between them and the relevant clearing system and to which the Corporation is not and will not be a party. The Corporation will not impose fees payable by any holder with respect to any Bonds held by one or more clearing systems; however, holders of beneficial interests in Bonds may incur fees payable in respect of the maintenance and operation of the book entry accounts in which Bonds are held.

Each of the persons shown in the records of any specified clearing system as the holder of a Bond must look solely to such clearing system for his share of any payment made by the Corporation to the depository of such clearing system, and in relation to all other rights arising under the Bonds, subject to and in accordance with the respective rules and procedures of such clearing system. Holders of Bonds shall have no claim directly against the Corporation in respect of payments due on the Bonds for so long as the Bonds are Book Entry Bonds, and such obligations of the Corporation may be discharged by payment to the depository of such clearing system in respect of each amount so paid.

The payments in respect of the Bonds will be made to the Registered Holders as described in Condition 6(a) above. According to Condition 1(c), all payments to or on the order of such Registered Holder shall be valid and effective to discharge the liability of the Corporation with respect to such Bonds to the extent of the sum or sums so paid.

Initial Delivery of the Bonds

Unless otherwise specified in the applicable Final Terms, in case of public offering, the Bonds will initially be subscribed and purchased (underwritten on guaranteed or non-guaranteed basis) by the relevant Dealer on the relevant issue date and may be further on-sold by the Dealer in full or partially to the investors procured by the Dealer.

Unless otherwise specified in the applicable Final Terms, in case of private placements, the settlement and resale of a new issue of Bonds to investors may take place within the nominee holding of the relevant Dealer. The Bonds will be delivered to the brokerage accounts of the investors, against respective funds moving in the opposite direction (delivery-versus-payment settlement).

Further details concerning such delivery and settlement may be set forth in the applicable Final Terms.

The Clearing Systems

GCSD

Joint Stock Company Georgian Central Securities Depository (“GCSD”) is a legal entity incorporated in Georgia. The main goal of GCSD is to hold in the nominee holding its members’ securities, to provide clearing and settlement operations relating to these securities, and to provide other types of services allowed by the legislation and the National Bank of Georgia.

Transfers of interests in Bonds within the clearing system will be made in accordance with the usual rules and operating procedures of the clearing system and the nature of the transfer. Further details concerning such rules and procedures may be set forth in the applicable Final Terms.

TAX MATTERS

The following is a summary of the provisions of the Articles of Agreement concerning taxation of the Bonds. This summary does not cover all of the possible tax consequences relating to the ownership of the Bonds and the receipt of interest thereon, and it is not intended as tax advice to any person. It addresses only holders who are initial purchasers of the Bonds at the initial offering price and hold the Bonds as capital assets, and does not address special classes of holders, such as dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, banks, tax-exempt entities, life insurance companies, persons holding Bonds as a hedge or hedged against interest rate or currency risks or as part of a straddle or conversion transaction, or holders whose functional currency is not Lari.

Prospective purchasers of Bonds should consult their own tax advisers concerning the application of any income, withholding, estate or other tax laws of any jurisdiction, to their particular situation.

Taxation of the Bonds in General

The Bonds and the interest thereon generally will be subject to taxation. Under the Articles of Agreement, however, the Bonds and the interest thereon are not subject to any tax by a member country of the Corporation (i) which tax discriminates against the Bonds solely because they were issued by the Corporation, or (ii) if the sole jurisdictional basis for the tax is the place or currency in which the Bonds are issued, made payable or paid, or the location of any office or place of business maintained by the Corporation.

Taxation of the Bonds in Georgia

Payments of principal and interest on the Bonds will be made by the Corporation to the Paying Agent without withholding or deduction for or on account of tax.

Pursuant to the Tax Code of Georgia dated September 17, 2010, interest income on, and capital gains resulting from the sale of, debt securities issued by international financial institutions (including the Corporation) are exempt from profit and income tax in Georgia.

CURRENCY CONVERSIONS

Investors will be required to pay for Bonds in Lari. Each Dealer may, under certain terms and conditions, arrange for the conversion of the Investor's Currency into Lari to enable investors whose financial activities are denominated principally in the Investor's Currency to pay for the Bonds in Lari. Each such conversion will be made by such Dealer (in this respect acting as principal and not as an agent of the Corporation) on such terms and subject to such conditions, limitations and charges as such Dealer may from time to time establish in accordance with its regular foreign exchange practices, and subject to any applicable laws and regulations. All costs of conversion will be borne by such investors of the Bonds.

Payments in respect of such Bonds will be made in Lari for principal, premium (if any) and/or interest payments as specified in the applicable Final Terms.

PLAN OF DISTRIBUTION

Dealers

Bonds may be sold from time to time by the Corporation to or through any one or more Dealers appointed by the Corporation and by the Corporation itself. Any Dealer will be able to purchase Bonds on an underwritten basis or on a best efforts basis, either individually or as part of a syndicate, or on an agency basis. The Corporation may, in respect of any particular issue of Bonds, enter into standby underwriting arrangements with one or more financial institutions in connection with such issue of Bonds.

Any agreement for the sale of Bonds will, *inter alia*, make provision for the form and terms and conditions of the relevant Bonds, the method of distribution of the Bonds, the price at which such Bonds will be purchased by the relevant Dealer(s) and the commissions or other agreed deductibles (if any) which are payable or allowable by the Corporation in respect of such purchase. In addition, each placement of Bonds is subject to certain conditions, including the condition that there shall not have occurred any national or international calamity or development, crisis of a political or economic nature, change in currency exchange rates or exchange controls, or change in the money or capital markets in which the Bonds are being offered, the effect of which on such financial markets shall be such as in the judgment of the relevant Dealer(s) or the Corporation materially adversely affects the ability of the relevant Dealer(s) to sell or distribute the Bonds, whether in the primary market or in respect of dealings in the secondary market.

Selling Restrictions

Except for action in connection with any listing on a stock exchange as specified in the applicable Final Terms, no action has been or will be taken in any jurisdiction by any Dealer or the Corporation that would permit a public offering of any of the Bonds, or possession or distribution of this Prospectus, or any part thereof including any Final Terms, or any other offering or publicity material relating to the Bonds, in such jurisdiction other than in Georgia as set forth in this Prospectus. The relevant Dealer(s) (and the Corporation in connection with sales of Bonds on its own behalf) will, to the best of its knowledge, comply with all relevant securities laws, regulations and directives in each jurisdiction in which it purchases, offers, sells, or delivers Bonds or has in its possession or distributes this Prospectus, or any part thereof including any Final Terms, or any such other material, in all cases at its own expense.

No Dealer is authorized to make any representation or use any information in connection with the issue, offering and sale of the Bonds other than as contained in this Prospectus, the applicable Final Terms or such other information relating to the Corporation and/or the Bonds which the Corporation has authorized to be used.

Selling restrictions may be modified by the agreement of the Corporation and the relevant Dealer(s) following a change in any relevant law, regulation or directive. Selling restrictions may also be added to reflect the requirements of Georgia. Any such modification or addition will be set out in the Final Terms issued in respect of each issue of Bonds to which such modification or addition relates or in a supplement to this Prospectus.

Georgia

Unless an exemption applies, a public offering of the securities in the jurisdiction without a prior or simultaneous delivery/publication of a final prospectus approved by the National Bank of Georgia in accordance with the Securities Market Law is not permitted. A "public offering" is an offer to sell securities directly or indirectly on behalf of an issuer or other person to at least 100 persons or to an unspecified number of persons. Offering of the securities to sophisticated investors only (as defined in the Securities Market Law) however will not constitute a public offering.

The securities may be issued in a public offering without approval of the prospectus by the National Bank of Georgia if the issuer is listed on a "recognised stock exchange of the foreign country" provided that the National Bank of Georgia is notified about the public offering of the securities in accordance with Georgian law and the evidence of such listing is provided to the satisfaction of the National Bank of Georgia in advance of the offering.

In addition, international financial institutions, including the Corporation, are exempt from the Prospectus approval requirements under the regulations adopted by the National Bank of Georgia in its capacity as competent authority under the Securities Market Law.

This Prospectus has not been, nor is intended to be approved by, or registered with, the National Bank of Georgia as the Corporation is exempt from the prospectus approval requirement.

It is expected that an application will be made to the National Bank of Georgia before each issuance to procure the assignment of an ISIN Code to the Bonds and to notify the National Bank of Georgia of public offer of the Bonds in advance, as applicable.

Each Dealer will be required to represent, warrant and agree that it has complied and will comply with all applicable provisions of the Securities Market Law with respect to anything done by it in relation to the Bonds in, from or otherwise involving Georgia.

United States

The Bonds are not required to be registered under the U.S. Securities Act of 1933, as amended.

United Kingdom

Each Dealer will be required to represent, warrant and agree that it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 with respect to anything done by it in relation to the Bonds in, from or otherwise involving the United Kingdom.
